How Do We Support

This will also be supported between visits by off-site information, advice, guidance, academic progress and technical competence support.

The trainer will work with the learner and the employer in order to ensure that all learning needs are being met for both parties, to ensure successful progression against all elements of the apprenticeship during the period of the programme.

The knowledge elements will require formal teaching sessions, which may take place within an appropriate area within the workplace or off site, in order to ensure the learner gets the maximum benefit of the learning in order to successfully pass their end point assessment.

End Point Assessment

In order to pass the apprenticeship, the learner needs to successfully pass the End Point Assessment. This assessment is made up through a number of stages:

- **A consultative project** – Learners will be asked to work on a real work project, in order to evidence and demonstrate a range of specific Knowledge and Skills
- **An employer reference** – this is usually carried out via a face to face or Skype call with an assessor from the end point assessment body
- **A learner professional discussion** – this is carried out via a face to face or Skype call with an assessor from the end point assessment body, where a discussion will be carried out around the contents of the project and the job role in order to verify the learner's knowledge, skills, competence and behaviours

The assessor from the end point assessment body will then decide whether to award successful apprentices with a pass or a distinction.
